Of these 10 volumes and 91 pamphlets were received through the Conchological Section.

The duplicate works which have accumulated from time to time have been catalogued, priced and packed, preparatory to sending them to Wm. Wood & Co., of New York, for sale. Selections from these duplicates to the value of \$150.00 have been exchanged by the Library Committee for a copy of Elliot's Birds of North America.

During the year the books in the Conchological Department have been newly catalogued and numbered. The latter arrangement has been productive of all the good results anticipated, and demonstrates the necessity of extending the same system of numbering throughout the entire library, at as early a date as possible.

All of which is respectfully submitted.

EDW. J. NOLAN, *Librarian*.
